STRATA PANELS™ ARE AVAILABLE IN THESE STANDARD COLOR OPTIONS:

Absolute Black

Agra Red Sandstone

Black Pearl

Crema Marfil

Indiana Bluff Limestone

Jura Beige

Kasota Limestone

Mocha Cream

Rainbow Sandstone

Roman Classic Travertine

Tan Brown

New Caledonia

New Venetian Gold

White Carrara

Virtually any stone can be custom ordered.

NATURAL STONE AVAILABILITY & YOUR IMAGINATION ARE YOUR ONLY DESIGN LIMITATIONS

Bellcomb Honeycomb natural stone clad Strata Panels™ are built to your stone and finish design specifications so you are not limited to manufacturer inventory and catalog samples.

You choose the granite, marble, or limestone to fit your design criteria and we apply it to our aluminum Combcore™ honeycomb panels.

Design lightweight Strata Panels™ into interior and exterior applications; on and in buildings, elevator floors and walls, on boats and ships, in rail cars and recreational vehicles; wherever natural stone will enhance the beauty and value of your project.

WHY BELLCOMB STRATA PANELS™

STRATA PANELS™ ARE MADE TO THE HIGHEST QUALITY STANDARDS BY THE LARGEST PLANT CAPACITY HONEYCOMB PANEL MANUFACTURER IN THE WORLD.

LIGHTWEIGHT

Weighs up to 80% less than traditional stone cladding. Strata Panels™ are easy to handle, weighing approximately 3.5 lbs per square foot in panels up to 5' x 10'.

STRONG

Bellcomb Strata honeycomb panels are stronger and more impact, wind and hurricane resistant than traditional stonework.

IMPERVIOUS TO WATER PENETRATION

While stone may not be impervious to water the aluminum honeycomb structure is and provides greater building integrity.

UNLIMITED MATERIAL DESIGN OPTIONS

You pick your materials; one stone or multiple stones. We work with you to build panels that reflect your design.

GREEN

We've engineered the most efficient solution to your stone panel needs, using less stone and less aluminum. As a result our panels require less labor and less time to install also less fuel in transportation to the job site.

See back cover for product specifications.
