FOR IMMEDIATE RELEASE

Bellcomb Technologies Earns ISO 9001:2008 Certification

Minneapolis MN-February 2, 2010-Bellcomb Technologies, a leading manufacturer of innovative lightweight panel system solutions engineered to outperform conventional applications, has achieved ISO 9001:2008 certification of its Quality Management System (QMS). Certification under the Orion Registrar Inc. program has been awarded in recognition of Bellcomb's effective quality management systems in the Design and Manufacture of Lightweight Composite Panels.

This certification recognizes Bellcomb's commitment to quality assurance in manufacturing processes, products, and service delivery of Lightweight Composite Panels. Bellcomb is committed to total customer satisfaction by providing products and services on-time with exceptional quality, reliability, and performance.

"Our success in achieving this goal is due to the superior dedication and teamwork of everyone at Bellcomb," said David Hartwell, President, "ISO 9001:2008 certification supports our pursuit of continuous improvement and on-going commitment to provide our customers with quality products."

Bellcomb continues to drive toward excellence for its customers by applying ingenuity in its design and process development, which is reflected in the integrity of our customer relationships, as we continue with a passion to meet and exceed customer expectations.
